

POLE PICTURES DARK SITUATION.

Charges Germans Attempt to
Grab All Property.

Declares Conquered District
in Desperate Shape.

Get Everything Possible in
Guise of Humanity.

(BY ATLANTIC CABLE AND A. P.)
LONDON, Nov. 24.—A dark picture of conditions in Russian Poland, and an argument against the necessity of providing food by charity, will be published in the Times tomorrow. "A leading member of the so-called Polish Independence party," which remains in close touch with the supreme Polish National Committee of Austrian Poland, is responsible for the statements.

The Times explains that the committee created and is responsible for the Polish legions fighting with the Austro-Hungarian army against Russia, and says that the author of the memorandum, therefore, cannot be supposed to entertain hostile bias against Germany's Austrian ally. One of the main features of the German administration in Poland, save the memorandum, "is the attempt to exploit the occupied territory economically to the utmost. Every new regulation aims at getting as much as possible out of the country, although the German authorities try to disguise this tendency in different ways."

"It is explained by reasons of strategy, of order, of policy, and even of humanity," the German authorities are especially anxious to give an appearance of humanitarianism to their policy in Russian Poland.

RELIEF ACTIVITY.
The memorandum says that Berlin's relief activity was short-lived. In March, 1915, Field Marshal Von Hindenburg, it says, proclaimed his famous refusal to allow the destruction of Poland, under which the Polish districts were to be answered by contributions and other burdens. The German army, according to the memorandum, contributed its voice against contributions for Russian Poland.

By an order of April 27 the memorandum continues, grain and potatoes after one and one-half poods (about fifty-five pounds) has been left for each inhabitant until the harvest, and the delivery of foodstuffs to the army was suspended. The order explained that the purpose was to provide food for districts where there was a shortage of foodstuffs. In the district of Kalisz, where there was plenty of grain which they were hoarding for an hour of need, were hoarding to give up grain for famine sufferers in Dombrova. That district received an absolutely insufficient supply, but on July 1 an order for securing the rest of the grain for the German army was enforced.

CONFISCATE HARVEST.
"This order," the memorandum says, "extended confiscation to the entire harvest, including the portion of philanthropy or humanitarianism."

Asserting that from the first the Germans "condemned the industries of Russian Poland to ruin," the memorandum gives details of alleged destruction or confiscation of property. It says that virtually all the coal-mining machinery in the district of Dombrova was destroyed in the autumn of 1914 "for strategic reasons" and that the population, dependent on the mines, were made desperate thereby.

Other alleged incidents cited are the withdrawal of the State Bank, the absorption of the country's fuel supply, the requisitioning of many commodities and of quantities of factory machinery necessary for the country's industries, which were taken to Germany and the seizure of factories and raw material to the value of \$12,000,000.

QUESTION OF PAYMENT.
Payment for requisitioned property, the memorandum asserts, was made on a matter of grace on a very inadequate basis and to be settled after the war. The writer complains of having been the inducing of skilled labor to go to Germany under pressure, 40,000 persons doing so.

As a result of the foregoing measures the memorandum says, hundreds of thousands of working-class families are faced with starvation. Manufacturers are keeping many persons in their factories, but the population in Lodz are living on \$30,000 to \$45,000 per day.

The article says the Germans have established a monopoly on coal, for which they charge exorbitant prices; inflated the currency, compelled local authorities to pay for repairs to roads and railways, which are used only for military purposes; confiscated government estates, denuded forests, placed in requisition the necessities of life, compelled all persons to carry expensive passports from which alone they have gained \$5,000,000, levied high taxes on towns and persons for violation of laws.

"The population," the memorandum concludes, "ruined by the war and ruined by so many disasters, accustoms them in an apathetic mood. There is the reflection, however, that one does not ruin economically a country in which one expects to stay."

THREAT OF FAMINE.
Many districts, the memorandum says, were threatened with famine as early as autumn of 1914. The inhabitants of the districts of Lublin, Dombrova and Czenstochowa were supplied cut off from external food supplies, but local organizations were doing wonders in their attempts to save the population from starving.

"The news of their distress," the statement adds, "spread throughout Europe and America, giving rise to the formation of relief committees. Committees were formed by Henryk Sienkiewicz, the author of the 'Quixote,' and the Rockefeller Institute discussed philanthropic action. Even official circles in Berlin announced their intention to take steps to help the starving population."

wagons carried off grain, potatoes and other foodstuffs, which were taken to Germany. The Germans brought threshing machines and even machines for digging potatoes in order to provide themselves systematically with food. On their return in the winter, although there was plenty of food in the country, they forbade it being transported from one district to another on the pretext of preventing speculation.

"Thousands of potatoes were rotting in some districts," says the statement, while across the borders the populations were dying from epidemics due to starvation. The German agents of the company from Posen, to which the German military had given the sole right to trade in food and other produce, made regulations on villages and manors until the country was bare of food, while the Berlin Relief Committee appealed to the German public, fed on Polish grain, for contributions for the hungry Poles.

REPORT FOOD RIOTS.
A dispatch from Amsterdam to the Exchange Telegraph Company says "Food riots are frequent in Poland. The shortage of supplies is so great in the towns around Warsaw that the wealthy are unable to obtain sufficient food. As a consequence the outbursts are of almost daily occurrence and involve fighting between civilians and the German troops."

"The situation has been made worse by the refusal of Gen. Von Bessler, governor-general of Poland, to allow the Polish Relief Committee to work except under German control, to which the committee declines to assent. The mortality among children has declined since the cold weather began."

**NOTE TO GREECE
MOST FRIENDLY.**
INSISTS ON DEFINITION OF POLICY TOWARD ALLIES.

Premier Skouloudis is quoted as saying: "If they Recross Frontier Although Government has not Yet Committed Itself on This Point."

(BY ATLANTIC CABLE AND A. P.)
PARIS, Nov. 24.—The collective note of the allies to the Greek government is expressed in friendly spirit and is generally in character. It requests the Greek government, according to an Athens dispatch to the Havas Agency, to confirm the assurances already given relative to the position of the allies' forces on Greek soil. The note asks for the earliest reply possible, under the circumstances.

Prior to the presentation of this note the questions which were discussed at the luncheon given by King Constantine in honor of Densu Cechin, member of the French Cabinet, and his wife, were discussed by the King, and no doubt appears to exist, the dispatch adds, that the Greek government will supply all the guarantees requested.

Premier Skouloudis of Greece is quoted by the Petit Parisien today as saying that if the allied forces in Macedonia retreat across the border Greece may disarm them, although the Greek government has not committed itself on this point.

This statement was forwarded from Athens by G. de Maisiere, a correspondent of the Petit Parisien. He quotes Premier Skouloudis as saying: "Greece is neutral and will remain neutral in spite of pressure, no matter from what quarter it is applied. Her neutrality, as it concerns the allies and France in particular will be of such a benevolent character that Greece will never lift a finger against the allied troops."

"Today we are asked to give an engagement that we will permit the allied armies operating in Serbia to retreat across our frontier and use our territory as a base and a field of operations. This would constitute active co-operation in the war on our part. It is a question of the question of application of the convention adopted at The Hague which forbids belligerent armies the conversion of their territory into a battlefield. I added that I branched this point from the legal aspect only. This observation caused uneasiness to the allies, who answered with a sort of blockade."

An Athens dispatch to the Havas Agency dated Tuesday says: "After the meeting of the Greek Cabinet, which considered the joint note of the allies concerning Greece's attitude toward the allies' troops, it was said that the situation had been cleared, the demands of the Entente powers having been more moderate than was generally looked for in Greece. It is understood that the allies ask simply that Greece assure the security of the allied troops in Macedonia."

REPLY OF GREECE.
(BY ATLANTIC CABLE AND A. P.)
LONDON, Nov. 25.—The Greek government replied Wednesday to the allied powers' note by a dispatch to Reuters' Telegram Company, which adds:

"It is understood that the reply agrees that the allied forces give them liberty of entering Greek territory for their own security and according to road and telegraphic facilities. The government offers reserves regarding a further examination of certain details."

"The allies' declaration that any part of the Greek territory occupied by the allies will be restored in due course and any justifiable indemnities paid, has favorably impressed the Greek government. The situation is developing so well that the Greek steamers held up at Malta have been released. Officials are no longer placed on the transmission of commercial cables."

An old portrait of Andrew Carnegie.

On November 25, 1915, Andrew Carnegie will celebrate his eightieth birthday. The accompanying picture, which is from a small portrait made by a traveling artist in Dunfermline, Scotland, shows Andrew Carnegie in 1845, when he was ten years old.

HOOT MON.

CARNEGIE IS EIGHTY AND PERFECTLY HAPPY.

Ironmaster, in Usual Birthday Greeting, Declares
All Goes Well with Him; that the World Grows Better
and that Peace in Europe will Soon be Established.
Is Depicted as the Most Optimistic Man in New York.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

NEW YORK BUREAU OF THE TIMES. Nov. 24.—"Ray to the reporters who usually call on my birthday that all goes well with me. Dr. Garmany marvels at the splendid return to health which a summer on the Maine coast has wrought. 'The world grows better and we are soon to see blessed peace restored and a world court established when in the words of Burns,

"Man to man, the world o'er
Shall brothers be for a' that."
Such was Andrew Carnegie's birthday greeting given out by his secretary today.

Andrew Carnegie will be 80 years old Friday, but this messenger statement was all that reports were given today in place of the usual merry birthday assemblage. His secretary denied, however, that the aged ironmaster was in poor health.

PERFECTLY HAPPY.
"He beat me at golf yesterday," he said, "and this morning he spent playing clock golf in the back yard. He is perfectly happy and the most optimistic person in New York City. Last summer when he wanted to go fishing and the captains were afraid of rough weather, he would always say there were no storms for him. I think that expresses his whole attitude toward life."

Tomorrow, Mr. Carnegie will celebrate the double holiday by a turkey dinner. The Carnegie Institute of Technology in Pittsburgh celebrated the birthday anniversary with exercises at which Dr. Henry D. Pritchett, president of the Carnegie foundation for the advancement of teaching, said: "The most noteworthy thing about Mr. Carnegie's preaching of the doctrine of consecration of wealth is the fact that his practice has squared with his preaching."

"The great bulk of his accumulations, nearly \$400,000,000, has been turned back by him to the public, to be used in the cause of human betterment. He is today a man of moderate fortune."

TEHERAN.

SITUATION IN PERSIA MINIMIZED BY RUSSIA.

(BY ATLANTIC CABLE AND A. P.)

PETROGRAD (via London) Nov. 24.—A dispatch received here from Teheran says: "Communication with Kium was restored yesterday. Maj. Halstrom, instructor of the gendarmes, which was responsible for the bloodshed at Hamadan, has resigned. He explains that the conduct of the gendarmes was due to false news of anarchy at Teheran, which was reported to have been taken and burned by the Russians, of fighting between Russians and the gendarmes and Persian Cossacks, and also to the failure of telegraphic communication with Teheran, declaring that they acted under orders from Teheran issued owing to a reported outbreak of war between Persia and Great Britain and Russia."

"Maj. W. T. O'Connor, the British Consul at Shiraz, and five other Englishmen and ten ships, have been taken by the gendarmes into the mountains. The Turks and Germans are continuing to stir up the Shah with the departure of the Shah with the diplomats of the central powers from Teheran."

STRATEGIC.

SERBIANS SEE A CHANCE TO STOP THE BULGARIANS.

(BY ATLANTIC CABLE AND A. P.)

PARIS, Nov. 24.—The Serbian Legation issued a note today saying that there had been a great improvement in the strategic situation of the Serbians following the Bulgarian defeats on the Kosovo plain, near Lebar, west of Belgrade, on Goguch Mountain, and at Velika Plana. The note points out that the Serbian army, pressed from the west and north by the Austro-German army and from the northeast and east by the Bulgarian army, has only one way out, namely, retreat toward the Albanian and Montenegrin Mountains.

CAPT. BOY-ED BROKE NO LAW.

Secretary Lansing Discusses
German Attache's Case.

Supplying Funds to Belligerents not Criminal Act.

Says Matter to be Dealt
with on Broad Grounds.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Nov. 24.—All questions affecting the status of diplomat and consular representatives of belligerent governments in the United States will be determined by the State Department on broad grounds of policy with special reference to the maintenance of friendly relations with foreign governments.

This was made known today by Secretary Lansing when his attention was drawn to testimony given in the Federal Court at New York that Capt. Boy-Ed, the German naval attache, furnished funds whereby a conspiracy was alleged to have been conducted by agents of the Hamburg-American line to supply German warships at sea.

The Secretary made it clear that while he had full knowledge of the evidence on which the cases were being prosecuted in New York, the State Department had not given its approval or disapproval to the opening statement by Asst. Dist. Atty. Wood, referring to Capt. Boy-Ed.

HINT AT FRITION.
Officials both at the Departments of State and Justice explained, however, that there was no controversy over jurisdiction between the two branches of the government. At the Department of Justice it was made clear that all the evidence in its possession had been brought to the attention of the State Department as rapidly as it was gathered, but that action affecting diplomatic officers immune from prosecution lay within the province of the State Department.

The position of Secretary Lansing is that diplomatic representatives not only are immune from criminal prosecution, but that nothing that may be done by the Department of Justice in the development of other cases binds the Department to action in the withdrawal of any diplomatic officer. In the cases also of consular general agents and other accredited agents of foreign governments, even though they do not enjoy diplomatic immunity from prosecution, the attitude of the State Department is that there are "implied questions of policy involved which will guide it in deciding whether a recall should be asked for."

NO LAW VIOLATED.
In the case of Capt. Boy-Ed, Secretary Lansing said that he was not as he is able to judge from the information in his possession, the German naval attache did not violate any law in supplying funds to obtain coal and provisions for belligerent ships at sea since this in itself is not a crime. The Secretary declined, however, to indicate whether it might be the attitude of the Department if it should be proved that Capt. Boy-Ed had knowledge of, or direct participation in, the alleged conspiracy.

CONFESION.

SIXTEEN STEAMERS USED TO AID GERMAN RAIDERS.

Hamburg-American Officials Admit at Their Trial for
Conspiracy that They Hired These Vessels, but Deny
They Violated Any Laws of the United States—Capt.
Boy-Ed's Name is Again Mentioned.

(BY A. P. NIGHT WIRE.)

NEW YORK, Nov. 24.—Twice again today the name of Capt. K. Boy-Ed, German naval attache, was brought into the testimony of witnesses at the trial of Karl Buena, Adolph Hochmeister, Joseph Poppinghaus and George Kotter, officials of the Hamburg-American line accused of conspiracy to deceive and defraud the government of the United States by dispatching relief ships with supplies to German cruisers in the Atlantic and Pacific at the beginning of the war.

The first of these two occasions related to a telegram sent December 16, 1914, by H. Suhrn, captain of the ship at Newport News, Virginia, to Hochmeister, advising him that the steamer was sailing that afternoon and that Suhrn, needing money, had borrowed on him for \$100,000. Hochmeister was told to take the matter to "Room 801 at 11 Broadway," and Roger B. Wood, for the government, who had been brought in by the case, was likewise brought in by the case. Capt. Suhrn's telegram. This message was addressed to "Philip Volz, care Nordmann, Room 801, 11 Broadway," and related to the Quenda's contemplated departure.

Mr. Wood informed the court that Mr. Volz thus addressed, was the Baltimore agent of the North German-Lloyd, which operated, till the war began a large number of transatlantic vessels under the German flag. It was possible, Mr. Wood added, that the North German-Lloyd were among the "other conspirators" mentioned in the grand jury's indictment.

SIXTEEN BOATS USED.

After having established in the forenoon session that the defendants had succeeded in loading coal and supplies on at least two of a fleet of five German warships and conveyed it to the Atlantic in September, 1914, by means of the Berwind, an American ship flying the Stars and Stripes, the government proceeded to deal with the Marina Quenda, which sailed from Newport News, December 16, 1914, and related to the Quenda's contemplated departure.

While the defendants admit they chartered twelve steamers for the purpose of carrying coal to the German navy, denying in their confessions that by doing so they were guilty of conspiracy—they do not admit that they had anything to do with the Quenda. On the contrary, William Hand, their

SERBS NEAR THEIR END.

Italian Correspondent Says the
Balkan Campaign is
Lost.

(BY WIRELESS AND A. P.)
BERLIN (via Bayville) Nov. 24.—"Luchino Nargini, Italian war correspondent, telegraphing from Monastir, recommends that the quadruple alliance give up its Balkan campaign as lost," says the Overseas News Agency today. "The Serbian tragedy, he declared, is nearing its end amid the universal indignation of the Serbians against the Entente powers."

ad the alleged falsification of manifests and clearance papers by agents of the Hamburg-American line. Legal proof, it is pointed out at the State Department, is not necessary in any event in deciding whether the personal acceptability of a foreign diplomat is to be terminated. Action, it was stated, could be just as well based on presumption. Questions of policy must be given consideration, however, because of the importance of supply German warships at sea. Capt. Boy-Ed was acting in compliance with the expressed views of his government, the department stated. At the time the alleged offenses occurred no penalty had been provided against the provisioning of belligerent warships, only in the closing hours of the last session of Congress was such a measure enacted.

A MOOT POINT.
Previously the question was a moot point between the governments of the United States and Germany. The latter served notice through Count von Bernstorff, dated December 15, 1914, as follows:

"The position taken by the government of the United States as to the delivery of coal and other necessities to warships of the belligerent states constituting a violation of neutrality is, in the opinion of the imperial German government, untenable in international law. Only when contraband trade would turn the ports into bases of German military operations would the unilateral stoppage of the trade of those vessels become a duty. Such, perhaps, would be the case if the Germans kept coal depots in the ports, or if the vessels called at the port in regular voyages, but it stands to reason that one merchant vessel occasionally sailing with coal or supplies for German warships does not turn a neutral port into a German point of support contrary to neutrality."

In answer to this Secretary Bryan denied that any merchant vessels had been refused clearance, as alleged by the German Ambassador, although certain detentions had been made to investigate the bona fide character of the cargo. He added that the "essential idea of neutral territory becoming a base for naval operations by a belligerent state is not in the government's repeated denials from such territory of merchant vessels laden with fuel or supplies for belligerent warships at sea."

In commenting today on the position of the United States, Secretary Lansing said he had no knowledge of the vessel referred to in the New York cases had repeatedly left American ports to supply belligerent German cruisers or commerce raiders.

PEACE REPORTS ARE REVIVED FOR RED CROSS

Prince Von Buelow's Appeal
with Cardinal Hergenrother's
Fund of Organization
is at the Lowest Ebb.

(BY ATLANTIC CABLE AND A. P.)
ZURICH (Switzerland) Nov. 24.—Reports of a new appeal for peace were revived today in a conference here of Prince von Buelow, former German Chancellor, and Cardinal Hergenrother, Prussian Minister to the Vatican. The conference is regarded as of great importance, because the prince is on his way to Rome to meet the pope, and the cardinal is the corresponding confidant of the pope. The conference is expected to result in a new appeal for peace, which will be sent to the pope for his approval. The prince is expected to return to Germany tomorrow, and the cardinal is expected to remain in Zurich.

FLOODED WITH TELEGRAMS.
WASHINGTON, Nov. 24.—The White House today was flooded with telegrams from all over the world, expressing sympathy for the Red Cross. The telegrams were received from the governments of many countries, and from private individuals. The White House is expected to issue a statement in response to the telegrams.

WOMEN'S PEACE PARTY.
The Women's Peace Party, which was organized in New York City, is expected to hold a conference in London tomorrow. The conference is expected to result in a new appeal for peace, which will be sent to the pope for his approval. The Women's Peace Party is expected to issue a statement in response to the telegrams.

NEW YORK, Nov. 24.—The Women's Peace Party, which was organized in New York City, is expected to hold a conference in London tomorrow. The conference is expected to result in a new appeal for peace, which will be sent to the pope for his approval. The Women's Peace Party is expected to issue a statement in response to the telegrams.

NEW SUBMARINE IS IMPRACTICABLE.

GOVERNMENT REJECTS PLANS OF LIEUT. HULLINGS FOR UNDERSEA CRAFT.
(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
WASHINGTON BUREAU OF THE TIMES, Nov. 24.—The plans of Lieut. Joseph Hullings, U.S.N., of Oil City, Pa., and son of former Congressman Willis J. Hullings of Pennsylvania, for an improved type of submarine, which, if feasible, were expected to revolutionize the undersea craft, have failed of acceptance, according to officials of the Bureau of Construction and Repair of the Navy Department.
Lieut. Hullings is stationed as an inspector of submarine construction on the Pacific Coast and on a recent visit here explained his ideas, which were based on the claim that he had worked out a method of expelling the exhaust gases of internal combustion engines under water, thus paving the way for the one power unit craft. Under the present system it is necessary to have an additional unit of storage batteries and electric motors for propulsion while submerged.
According to Lieut. Hullings, this feature would have changed the submarine from an offensive to a defensive weapon, allowing it to be constructed much smaller than at present and to operate on the surface of the water or under water.
He asserted it would have a cruising radius of 250 miles from a base that was practically unlimited as it would be wherever the parent ship happened to be stationed. He claimed a greatly increased speed both submerged and on the surface and also possible of one man control.

WILSON'S THANKSGIVING.
Will Take Dinner with His Family and His Friends.
(BY A. P. NIGHT WIRE.)
WASHINGTON, Nov. 24.—Thanksgiving will be quietly observed in Washington tomorrow, all departments of the government being closed.
The plans of President Wilson are somewhat uncertain. He had not completed his annual message to Congress tonight, and probably will finish it tomorrow morning. He will have Thanksgiving dinner at the White House, and his family and his friends.
It was said to be doubtful tonight where he would dine, although a report including a thirty-five-pound turkey, fattened particularly for the occasion by South Trimble, clerk of the House, will be prepared at the White House.
Secretary Garrison left tonight to spend Thanksgiving in Jersey City, and Secretary Daniels will be with his mother in Goldboro, N. C. Other members of the Cabinet expect to spend the day in Washington. The President and the members of the Cabinet will go to New York for Saturday for the Army-Navy football game.
Many diplomats and officials will attend the annual Thanksgiving mass at St. Patrick's Catholic Church. After the mass, the President is expected to have a luncheon at the rectory of the church, and all of the diplomats from the United States and the world will be present. Secretary McAdoo will attend as the representative of the government.

CONTEST COMPENSATION ACT.
Laws of New York and New Jersey Are Attacked by Several Steamship Companies.
(BY A. P. NIGHT WIRE.)
WASHINGTON, Nov. 24.—Constitutionality of the New York and New Jersey workmen's compensation laws is questioned in appeals filed today in the Supreme Court.
The Southern Pacific Steamship Company claims in one case that the law interferes with interstate commerce and that it is unconstitutional. The Atlantic Coast Line, the Clyde Steamship Company, the American Radiator Company and the American Shipbuilding Company also have filed appeals.
The law in New York provides that employers of workmen are liable for compensation in case of injury or death. The law in New Jersey provides that employers of workmen are liable for compensation in case of injury or death.

NEW USE FOR RESERVE BANKS.
Secretary McAdoo Announces He Will Make These Institutions Depositories for the Government.
(BY A. P. NIGHT WIRE.)
WASHINGTON, Nov. 24.—Secretary McAdoo announced tonight he had decided to make the Federal reserve banks depositories and fiscal agents of the government. The necessary orders will be effective January 1.
At the beginning Mr. McAdoo expected to transfer to the reserve banks the funds of the Federal government now on deposit with national banks in the cities where the reserve banks are located, amounting in all to about \$7,000,000.
In a letter to the reserve bank announcing the plan, the Secretary says each Federal reserve bank will be required to perform on behalf of the government the services which are now rendered by the national bank depositories in New York, as well as any other services incident to the responsibilities of fiscal agents.

IS USING GENIUS.
NEW DEPARTMENT IN NAVY.
(BY A. P. NIGHT WIRE.)
WASHINGTON, Nov. 24.—Changes within the Navy Department whereby Secretary Daniels proposes to make use of the inventive genius of the nation advanced another step today with the appointment of Capt. William S. Smith, now engineering officer at the Philadelphia yard, to a post in Washington which the Secretary described as a clearinghouse for suggestions. Capt. Smith will receive all communications dealing with proposed new devices for navy use, sift out the useless ones and sort the remainder for consideration.

GRAIN HOUSE FAILS.
MILWAUKEE (Wis.) Nov. 24.—The E. G. Hadden Company, grain commission long Nov. 24, considered the largest dealers in grain futures in the city, suspended operations today. The firm announced it had over 2,000,000 bushels of grain of customers on its books and was unable to collect margins.

SKILLED LABOR GOES TO EUROPE.

National Defense Programme Greatly Hampered.
Construction of Battleships Made More Difficult.
(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
WASHINGTON BUREAU OF THE TIMES, Nov. 24.—Difficulties of the United States government in carrying out the national defense programme have been accentuated by the transportation of highly-skilled labor from America to Europe. Government officials have just received information that a complete shipbuilding division of 100 men was organized at Newport News and engaged under individual contracts for at least a year's service and taken to Russia. Two steamships were required to transport the big force of mechanics, foremen, and specialized workers from Newport News, where they were engaged, to Russia. The men were hired under contracts which, according to statements in government circles, guaranteed them twice the American scale of wages.
The raid upon skilled mechanics in America by European countries is expected to complicate the problem of government construction of battleships Nos. 43 and 44.
GOVERNMENT CONSTRUCTION.
The first step for the government construction of battleships was taken yesterday when Secretary Daniels asked steel manufacturers to submit before next Wednesday bids on 31,000 tons of structural steel for the new vessels. These companies are asked to state the earliest possible date of delivery. The bids on steel are not advertised for in the usual fashion because the Navy Department wishes to avoid delay. Moreover, the private bidders announced that they were unable to get steel without delay in the United States.
The government wants to know whether it is to be subjected to such an experience.
If Secretary Daniels is advised by the steel makers that the government will be compelled to wait, then he will take up with the President and Congress, especially the chairman of the naval committee, the question of whether the government is to go in to the steel business in order to carry out the preparedness programme. The impression here is that the steel manufacturers will strain a point to assure the government that steel will be furnished with reasonable expedition.

CONSIDER PUGET SOUND.
One of the navy yards that probably will be considered in the construction of the new navy yard at Puget Sound, Pacific Coast members of Congress are insisting that one of the new warships be built at the Puget Sound. It is almost certain that the Philadelphia navy yard will be given one of the contracts if the government undertakes its own shipbuilding, while the armor plate plant also is likely to be erected there.
Government officials are deeply concerned at the indication that Europe is making special efforts to hire skilled workers from the shipyards of the United States. The Hampton Roads district is one of the largest shipbuilding centers of the country. At this time, when shipbuilding mechanics are in great demand all along the Atlantic Coast, and when the costs of ship construction have risen considerably, the government is somewhat apprehensive as to the future.

UPHOLDS COMPENSATION LAW.
DES MOINES (Iowa) Nov. 24.—The Iowa Supreme Court today upheld the constitutionality of the Iowa employers' liability and workmen's compensation act. The court held that where employers reject the compensation act they remain under the employers' liability section of the law. This does not take away from employees the right to show that they are blameless for accidents to employees, the decision says.

WAGES INCREASED.
LOWELL (Mass.) Nov. 24.—An increase in wages amounting to \$300,000 yearly has been granted by the United States Cartridge Company to its 5000 employees here, according to an announcement by the company today. The increase was recommended by the State Board of Conciliation.

I CURE PILES.
Fistula and all Rectal Diseases WITHOUT AN OPERATION
By MY PAINLESS DISSOLVENT METHOD
For twenty-five years I have been curing diseases of the rectum and lower bowel. During that time my experience as hospital and railroad surgeon, as college lecturer and professor, has enabled me to develop a method that is superior to others.
My method is not a "home cure" or a "correspondence treatment" but it is an application of skilled treatments administered under the most rigid antiseptic conditions in my office.
I solicit old, severe and obstinate cases of fistula, prolapsus, fissure and ulceration that have heretofore resisted all treatments employed. If you are a sufferer from rectal trouble I invite you to investigate my method thoroughly by talking or writing to any of my cured patients. If you will call at my office I will be pleased to give you the names and addresses of many well-known Los Angeles people I have cured, whom you may interview in regard to my treatment.
I keep a trained lady nurse constantly on duty in my office for the convenience and comfort of lady patients.
WELL-KNOWN SANTA MONICA MINISTER CURED.
This is to certify that Dr. C. H. White has cured me of a distressing hemorrhoidal ailment of 25 years' duration. His method of treatment is effective, but not severe. He has the appliances, the knowledge and the skill born of many years of specialization. This fruitful source of physical disease. He accomplishes all his claims in his advertising and at reasonable expense.
I take pleasure in heartily commending the man and his methods.
WILLIAM E. BRANK, Pastor, Santa Monica, Cal.
ANTI-SALOON LEAGUE SUPERINTENDENT CURED.
My Dear Mr. White: I am thankful for the privilege of bearing witness to your ability to treat, without pain, and with success, the delicate and disabling diseases which result from an ordinary work. To all who need a skillful, sympathetic and experienced specialist in your line, I heartily commend you. Very sincerely yours,
ERNEST E. CHAPMAN, League.
PRESIDENT OF WHITTIER COLLEGE CURED.
For more than ten years I was a sufferer from a painful affliction, which nearly ruined my usefulness as an organizer and teacher. Dr. C. H. White of Los Angeles has completely cured me by a process that was painless and rapid, and I desire to go on record as recommending the Doctor in diseases of his specialty.
THOMAS NEWLIN, President Whittier College, Whittier, Cal.

Room 332-3-4-5 West Robertson Building, 104 West Third St., Los Angeles, Cal.

British Threat.

(Continued from First Page.)
presented on the opening day of Congress calling upon the United States to place an embargo on all munitions of war in revenge for the blockading of our cotton. This is certain to lead to a terrific uproar.
England seems to have her answer ready, for in one of the Washington newspapers tonight was printed a dispatch from London in which the Foreign Minister, who says that Japan is prepared to send troops to Europe "if there is any occasion therefor."
As a matter of fact, England would never dare bring Japanese troops to Europe on account of the Canadian and Australian troops. One of the Canadian friends, now a commissioned officer in the English army, told me frankly it would bust the English empire. The statement of Baron Ishii must be regarded as an intimation that twisting the tail of the British lion will not be a safe amusement for this Congress to indulge in. Japanese troops couldn't very well be sent to Europe, but they would be sent somewhere else.
The national defense problem is one which Dr. Wilson will set forth at great length in his message supporting Secretary Garrison's plan for a conference of neutrals. The prospects for national defense look rather dismal.

SCHEMES OF CONGRESSMEN.
Every other Congressman has some wonderful pipe dream for raising an army by mobilizing the wheelbarrow men's union or for defending the country by asking some kind-hearted inventor to make a machine to do it. The Congressmen, who haven't lurid schemes for making an army are starchy-eyed peace advocates with sweet and practical theories. Between the two of them the whole thing threatens to end with a lot of gabble.
On top of all other troubles, the suffragettes are pouring into the city with plans for the grandest splash ever made before Congress.
Francis Joliffe and Mrs. Barnard Field, two very charming ladies from San Francisco, are to present a petition four miles long and there is out of pocket \$25,000 a week. Mrs. Mary Austin, the author, who says she loves to sit and listen to the sea, is to plan all the dramatic details of the two of them. It is to receive an advance guard of the suffragette army at the White House.
THE MONEY PROBLEM.
The most serious problem that confronts the President and the Democratic Congress is money. Although the war brought many billions of dollars into the United States by way of increased exports, Uncle Sam is out of pocket \$25,000 a week. The government's revenue have fallen to a shadow and the Wilson tariff lets most of that shadow in free of duty. Last week 'was in New England and they told me that there would be a strong demand for it return to a tariff so high you have to stifle it. Dr. Wilson, it is said, will practically stand pat on his tariff.

THEME OF MESSAGE.
(BY A. P. NIGHT WIRE.)
WASHINGTON, Nov. 24.—President Wilson. It was learned tonight has rejected various suggestions for incorporation in his next annual address to Congress because of his desire to devote it primarily to the theme of national defense. In all probability he will address Congress again later in the session, taking up other questions.
In reply to a letter from Representative Joliffe of New Jersey asking that civil service reform be touched on in the address, the President replied he was forced to refuse.

FOR A BAD COUGH.
Here is a fine old-fashioned recipe for coughs, colds or catarrh throat that has been used for many years with great success. Get from your druggist 1 oz. of Parment (Double Strength) and add to it 1/4 pint of hot water and 4 oz. of granulated sugar. Take one tablespoonful four times a day.
No more racking your whole body with a cough. Clogged nostrils should open, air passages of your head clear up so you can breathe freely. It is easy to prepare, costs little and is pleasant to take. Anyone who has a stubborn cough, or hard cold or catarrh in any form should give this prescription a trial.

JAPAN PROMISES ARMY FOR EUROPE.

IST ATLANTIC CABLE AND A. P. 1
PARIS, Nov. 24, 5:25 a.m.—Japan is willing to send a strong army to Europe if the need arises, the Tokio correspondent of the Petit Parisien says. A statement to this effect is credited to Baron Ishii, Japanese Foreign Minister.
The Foreign Minister is quoted as saying only one-third of the men mobilized by Russia have been armed, but by the end of the month Japan will have done much toward arming completely the other two-thirds.

MEXICO.
(Continued from First Page.)
ported repulsed recently after a bombardment of Hermosillo, capital of Sonora, have resumed the attack on the city and engaged in a bloody battle in its suburbs. The forces of Gen. Diaguez, the Carranza defender. Wireless reports of the attack, dated yesterday, were received by Gen. Obregon, commander-in-chief, today. The outcome of the engagement was unknown here.
A readjustment of the campaign of Gen. Obregon in Northern Sonora was estimated tonight, when it was learned the Carranza chief had established headquarters at Santa Cruz and orders reinforcements there.
The gunboats already in the attack on Cananea, is still a mystery, but reports have been received that the Carranza forces are in different places in the north. Gen. Carranza, reporting from Santa Cruz today, said a force of Villa cavalry encountered in that vicinity had been pushed to flight. Other Villa troops reported near Agua de Hondo, twelve miles south of Nacozari, resulted in the cancelling of trains running south of Agua Prieta.
Three troop trains of Carranza reinforcements from Piedras Negras passed through Douglas today, en route to Naco.
The body of Edgar B. Beane, an American engineer murdered by Villa troops, brought from Cananea today, is being held here pending instructions from Beane's family in New York.
GEN. RICAUT GIVEN COMMAND.
(BY A. P. NIGHT WIRE.)
LAREDO (Tex.) Nov. 24.—From Gen. Carranza's headquarters at Nuevo Laredo today it was announced that Gen. Alfredo Ricaut, commander at Nuevo Laredo, has been promoted to the rank of major-general, and given command of the border from Matamoros, opposite Brownsville, to Laredo.
Carranza planned to leave Nuevo Laredo tonight or tomorrow for Monterrey, and thence go to Matamoros.
RICAUT WELL KNOWN.
(BY A. P. NIGHT WIRE.)
BROWNSVILLE (Tex.) Nov. 24.—Maj. Gen. Alfredo Ricaut, promoted today to command the de facto government troops along the Mexican border from the coast to Nuevo Laredo, is popular on both sides of the river in this section and news of his promotion today was received with gratification by people who have been living in uneasy fear of a renewal of bandit attacks. Gen. Ricaut formerly was commander at Matamoros. Gen. Eugenio Lopez, the 24-year-old commander of the Matamoros garrison, has been transferred to the interior, it was learned.
Ramon Pizano, charged with complicity in the murder of Herbert MacGuire, private in the Twelfth U. S. Cavalry, was given a preliminary hearing today. MacGuire was killed August 2, when bandits attacked Los Tuleitos ranch, where he was stationed as a patrol guard. Pizano, brother of Aniceto Pizano, alleged leader of the so-called Texas revolution, was found after the fight hidden under blankets in the kitchen of the house around which the fight centered. He claimed he did not participate in the battle, and was corroborated by his former wife, who was in the kitchen at the time. Other witnesses testified that the shots came from the house. The hearing was continued.
Capt. Espinoza was said to have commanded the victorious Carranza force which routed the forces of Gen. Alberto Carrera Torrez, driving them into the mountains in the direction of the city of San Luis Potosi. No details were given of the losses in the battle.
CAREER OF BEAN.
(BY A. P. NIGHT WIRE.)
BRIDGEPORT (Cal.) Nov. 24.—Edgar Beane, the engineer whose body was found near Puerto Blanco, Mex., was said by relatives here today to have been formerly a resident of Bridgeport. About ten years ago, it was stated, he went to California, where he studied electrical engineering, later becoming the employ of the California Consolidated Mining Company. His wife died about twelve years ago. Beane was 40 years old, and was born at Three Towns, N. Y., where his three children and his parents are now living.
CHRONIC & NERVOUS DISEASES. MEN AND WOMEN.
We Specialize in Catarrhs, Rheumatism, Head Aches, Neuralgia, Lumbago, Sciatica, Neuritis, Piles, Hemorrhoids, Epilepsy, and other chronic diseases of the Nervous System. Dr. J. H. BOWEN, 123 Third St., Los Angeles. Hours 9-5. Evenings 7-9. Sundays 10-11.

ADMIRAL WINSLOW'S FLEET ORDERED TO TOPOLOBAMPO.

(BY A. P. DAY WIRE.)
WASHINGTON, Nov. 24.—Admiral Winslow, commanding the Pacific fleet, was ordered today to commission immediately the transport Buffalo, which was undergoing repairs, for the transportation of marines to the west coast of Mexico, where the cruiser San Diego also 275 additional marines, ready to land to protect Americans and other foreigners.
The Buffalo probably will leave here before Monday.
DUE TO LOS MOCHIS RAID.
(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, Nov. 24.—Orders to Admiral Winslow to go to Topolobampo followed radio advices received here yesterday of the second sacking of Los Mochis, Sinaloa, within two weeks and the mistreatment of Americans there.
These outrages are credited to Villa adherents including some Mayo Indians.
The San Diego arrived here November 13 after an extended cruise along the Mexican west coast.
The San Diego began coaling today and probably will sail by noon tomorrow. She will take on board tomorrow a battalion of the Fourth Regiment of Marines, quartered at the Panama-Pacific Exposition. An artillery company may be taken on board at San Diego, officers said.

SALE OF SURPLUS AND SAMPLE SUITS AT HALE'S FRIDAY

YOUNGSTERS HAVE A FINE SPREAD.

ST. ELIZABETH DAY NURSERY HAS MANY GUESTS.

Nearly fifty kiddies enjoy chicken dinner and afternoon refreshments of ice cream, cake and candies—day is spent in merriment and thankfulness.

Probably no more appreciative dinner guests were to be found in Los Angeles yesterday, nor will be found today, than the sixty-four kiddies who were guests of the St. Elizabeth's Day Nursery, No. 115 North Anderson street.

The entertainment was no mere serving of dinner and then a slipping away of the guests as speedily as possible. They stayed to enjoy themselves, and they certainly did have a good time. There was the big chicken dinner first. Exactly like an affair of grown-ups it was. To be sure the bright, cozy dining room had tables with short legs; but that really was necessary, you know, for these kiddies are not as big as they will be some time. There was the snowy white linen, the shining china and silver, the centerpiece of fruit and flowers, and all the "fixins" of a real dinner party.

Then, later on in the afternoon, the guests were again assembled and before them were placed great, steaming-hot dishes of ice cream, plates of cake and baskets of candy—a regular feast of good things. Before a morsel was touched, the sixty-four pairs of little hands were placed together, the two heads bowed reverently, and in unison a prayer of thanksgiving was raised by the childish voices.

Then came the songs and games and the fun in the yard; something for every minute until time for the youngsters, tired but happy, to find their way home or be called for by their mothers.

The matron, Mrs. Nellie Peyton, was assisted in caring for these sprightly guests by a group of young ladies who have been giving assistance in the day nursery work for some time.

The volunteer workers who give instructions in sewing, music, kindergarten, story-telling and games in the regular course of the day nursery are Misses A. Crowell, Mary Forre, Anna Grant, A. Goodwin, M. J. Jones, Esther Love, Mignonette Mignot, Catherine Mullen, Annette Macintosh, Evelyn Moss, Marie Nolan, Irene O'Neill and Marie Scheller.

From forty to fifty children are left in care of the nursery each working day by mothers who have to leave their homes to labor, while the children come from the general neighborhood of "The Flats," the section directly east of the Los Angeles River. The institution provides a great help to the women of the neighborhood, and they are not slow in expressing their appreciation. When the mothers are able to pay, a small charge is made for the care of each child she leaves for the day. If she cannot pay, the child is cared for just the same, and this expense is met by funds provided for this purpose by charitable people. The institution has been in operation for about eight years.

Are They Thankful?

TURKEY FOR THE SCHMIDT JURORS.
ALSO AN AUTO RIDE AND EKE A PICTURE SHOW.

Everybody in the dynamite trial will take a day off—State to call to the stand Friday first of the men who actually placed bombs for McNamara Gang.

Great fun is in store today for the thirteen jurors in the trial of M. A. Schmidt, charged with murder in connection with the dynamiting of the original Times Building. Promptly at noon they will partake of a turkey dinner at the Alhambra Hotel and in the afternoon will take an automobile ride to the beaches, while in the evening they will attend a moving picture show.

Announcement was made by District Attorney Woolwine yesterday that the State will conduct the trial by the introduction of testimony by witnesses who took active part in dynamiting buildings, bridges and other structures throughout the country. The first witness of this character will be Edward F. Clark of Cincinnati, who will probably be called late in the day.

Clark is one of the men who confessed to the Federal authorities in Indianapolis. Upon his story that he had taken part in only one dynamiting job—and it was a failure—he escaped a prison sentence and made an important witness for the government. In his testimony at Indianapolis, Clark told of being censured the day following his "failure" because he left his umbrella, bearing his initials, near the scene of the explosion. He said he was discharged from further service. "They told me I would not do as a dynamiter, because I didn't have any more sense than to leave my calling cards around a job," the man testified.

Orlie E. McManigal, whose confession sent the McNamara's to the penitentiary and had much to do with the conviction of the labor-union officials in Indianapolis, will be placed on the stand early next week.

The testimony of four young lady stenographers, formerly employed by J. J. McNamara when he was secretary-treasurer of the International Association of Bridge and Structural Ironworkers, occurred both as a session of the trial yesterday. The witnesses were Nora E. Haley, Louise Meyer, Anastasia Moran and Gertrude Kilgus. They identified signatures and letters that passed between officials of the association.

HONOR ALMA MATER.
More than 100 organizations of alumni of the Ohio State University will meet throughout the United States tomorrow to honor their alma mater and Ohio State Day. Special rooms have been engaged at Christy's for the Southern California Association tomorrow night. A program of unusual merit has been arranged. The associations at San Francisco, Columbus and New York will have the use of the transcontinental telephone lines, over which speeches will be made by State Superintendent of Schools Hyatt at San Francisco, President Thompson and members of the faculty at Columbus and prominent alumni in New York City. Informal greetings, songs and college yells will be exchanged across the continent.

Thanksgiving Feast at St. Elizabeth's.

Three happy guests, Members of party of sixty-four little folk, who had a great spread, just like grown-ups, yesterday at Day Nursery on Anderson street.

Grateful Thousands.

(Continued from First Page.)
at which Dr. S. Hecht will deliver the address. His subject will be "Watchful Waiting." Reynolds E. Blight, minister of the Church of the People, will speak on "Triumph of Democracy." The Universalist choir will give a special musical program.

All windows at the general post-office will be closed all day today, the first time for several years. It has also been announced that all the buildings at Exposition Park will be closed all day.

Unity Here.

PATRIOTISM IS SINGLE THEME.

NOTABLE UNION SERVICE OF THANKSGIVING.
Representatives of American, German, English and Japanese speak at large gathering in Blanchard Hall—Collection for All Red Cross Societies.

One of the notable Thanksgiving events was that which occurred last evening in Blanchard Hall, under the auspices of the Church of the People. It was a union Thanksgiving service in which people of many nationalities participated, and at which there were addresses by representatives of various nations. A collection was taken, and the money received was divided between the British and German Red Cross societies.

The list of speakers included Max Socha, editor of the Germania, the German daily newspaper of Los Angeles; Dr. J. C. Copeland, secretary of the British Red Cross; the Japanese Vice-Consul, Hon. Ulfro Oyama, and Col. J. J. Steadman. The meeting was presided over by Reynolds E. Blight, pastor of the Church of the People. Invocation was offered by Rev. E. Stanton Hodgins and the President's Thanksgiving proclamation was read by Mrs. Hank Wickler.

Under the direction of Miss Effa Groves, the Manual Arts High School orchestra gave several selections, and other musical numbers included solos by Miss Katharine Fluke, Miss Althea Harrison Oliver and Walter Hastings Oliver.

The chairman struck the keynote of the meeting when he said: "Britannia, German, Frenchmen, native sons though we may be by birth, tonight we proclaim our American citizenship and renew our pledge of loyalty to our flag. We know no divided allegiance. We are citizens of Uncle Sam and rejoice that we have found a resting place under the eagle's mighty wings."

"Should danger threaten, the world would find us loyally rallying around Old Glory, joyfully giving our strength, our lives and our sacred honor in defense of American ideals and American institutions."

Dr. J. C. Copeland, secretary of the British Red Cross Society, made a rousing address that drew enthusiastic applause.

"In anguish and blood and tears this old world is under going a spiritual labor, and is bringing forth a new civilization and a new ideal of liberty," he said.

"The man who can stand unmoved as he beholds this awful spectacle—the man who wraps himself in the Stars and Stripes and loudly protesting his neutrality, can see only, in this, the greatest of the world's tragedies, an opportunity of making money ought to be hissed and howled into the lowest abyss of hell. Feudalism, aristocracy, military autocracy, absolutism and the divine right of kings cannot hold back the flood tide of liberty, and the dawn of the day of glory is at hand."

"Out of a population of 100,000,000 we have 2,000,000 of foreign birth or parentage. By a process of beneficent assimilation they have become part of the bone and sinew and spirit of America."

"Some pessimists filled with fantastic fears, doubt the loyalty and fidelity of our people of foreign birth or parentage, and can only see defection, dissension and disintegration in this country because involved in war. It is unfair, unjust and un-American to condemn this splendid body of our citizenship because it contains a few noisy, clamorous, alien hyphen-Americans. Let us renew our allegiance to the flag. The fact that so many nationalities are participating in these patriotic exercises proves the unity of the nation and demonstrates that our talk about the brotherhood of man is passing from rhetoric to realization."

Twin Harbors.

(Continued from First Page.)

to 2500 feet, which is as deep as any of us want to remain for any considerable length of time. The sandy bottom and clearness of the water also make it ideal for torpedo practice.

"I might add here that it would also be a good idea to have San Pedro Bay set apart for torpedo ranges, as every torpedo that we lose means a loss of \$5000. On your sandy bottom and with your clear water the rate of loss would be small. There is also little or no ground swell to impede operations."

"I can say with the utmost emphasis that those who have the service at heart recognizing the water between Point Firmin and Long Beach as the best place in America for submarine maneuvers. We all hope that this harbor will be made a submarine base."

Acting President E. J. Richards of the Long Beach Advertising Club presided at the banquet only long enough to introduce Postmaster Walter J. Desmond as toastmaster. The speakers included Mayor W. T. Denney of Long Beach, W. H. Waisaca, P. E. Hatch, C. G. Curtis and C. H. Windham.

After the banquet there was a dance in the ballroom of the Virginia, winding up a day that furnished many fine attractions which can be offered by the San Francisco exposition. He has secured for the fourth floor of the carnival building, opposite the City Hall on Broadway, Don Carlos's celebrated dog and monkey hotel, a trained animal exhibit which is conceded to be the very best that has ever presented, and which heretofore has never been shown at an indoor carnival.

These clever little pets of Don Carlos actually operate a business in the same manner as human beings; one must almost concede that they have human intelligence, judging by their actions.

On the fourth floor will also be a room for the sale of Mrs. Conant's former Miss Margaret Pewee. They are to motor back to their home soon, stopping en route at Coronado. The coming spring Mr. Conant and his bride are planning to make a long tour of the South Seas. Mr. Conant has many business interests here as well as in the reclaimed valley.

NEWLYWEDS RETURN.

Mr. and Mrs. Clarence Edward Conant of Imperial Valley, who returned from a six months' honeymoon in and about Mrs. Conant's home, San Francisco, and through the Puget Sound country on to Alaska, only last month, have been in Los Angeles the past week, stopping at the Alexandria. Mrs. Conant was formerly Miss Margaret Pewee. They are to motor back to their home soon, stopping en route at Coronado.

The queen contest is growing rapidly and Mr. Nixon is daily receiving many applications from beautiful Los Angeles girls who wish for the honor of reigning over the biggest indoor amusement enterprise ever developed in the Southland.

DISMISS DEADLOCKED JURY.

Majority Favors Acquittal in Auto Wreck Case After Five Hours of Deliberation.

Standing eight to four for acquittal, after having been out for five hours, the jury in the case against Cleveland Schultz, an attorney, arrested a week ago and charged with reckless driving, after his automobile struck another machine driven by J. J. Snow of No. 1244 West Thirty-ninth street, reported to Police Judge White at 9 o'clock last night that no agreement could be reached. The case will be reset Friday.

Cleveland Schultz, who acted as his own attorney, declared last night that the case would not be retried. He stated that if it should be taken up again he would be acquitted.

Just before the jury went out to dinner at 6 o'clock Juror J. A. Woy announced to Judge White that he had been instructed by his wife to buy a turkey, and that if he did not attend to it at once all the stores would be closed. He declared that if he returned to his home he would lose his "happy home."

The judge instructed the officers, who had the jurors in charge, to search them all to make sure that where the turkey could be obtained. When Mr. Woy returned to the courtroom about an hour later he had a ten-pound bird under his arm and a smile on his face.

LINK UP NEW CRIMES.

Watch and Chain Found on Suspected Burglar Clued to Theft of Two Other Stores.

M. F. Lundergan, charged with attempt to loot a South Pasadena grocery safe Sunday morning, is now suspected of having looted an Alhambra jewelry store and also having broken into the safe of Barrett-Hicks Company in Fresno, June 21.

While going through some of his possessions at the County Jail yesterday morning, officers discovered a watch bearing the serial number of one stolen from the Alhambra store and a chain all too clearly identified as part of the loot of the Fresno store.

BUILT FIRST HOUSE.

(BY A. F. NIGHT WORK.)
SANTA ANA, Nov. 14.—Bolivar Jones, 90 years old, carpenter, who was said to have built the first house in the Santa Clara Valley, died today at his home near here. Mr. Jones drove a team across the continent to the Pacific Coast in 1843. He is survived by a widow.

Why Tolerate Catarrh?

You have noticed, no doubt, that any cold aggravates nasal catarrh, and the flow of mucous amazes you that such objectionable matter could find lodgment in your head. To ignore the catarrh when the cold subsides is wrong because it continues to slowly injure the delicate linings of the nasal passages and clog them up.

To correct catarrh, cleanse the nostrils frequently with a solution of warm water and salt, insert vaseline on retiring, and take a spoonful of Scott's Emulsion after meals for one month. Scott's acts through the blood to feed the tissues, and contains soothing glycerine to check the inflammation and heal the sensitive membranes. Scott's is pleasant to take.

Scott & Bowne, Bloomfield, N. J. 15-30

TAX ON WAR MUNITIONS.

Chamber of Commerce Directs Favors Such Levy on Goods Shipped Out of Country.

Resolutions urging Congress at its next session to levy a tax upon war munitions exported by manufacturers in this country were adopted yesterday by the directors of the Los Angeles Chamber of Commerce.

This action by the Chamber was taken in support of a general movement by civic organizations throughout the country in favor of a new tax to increase the government's sources of revenue, which were seriously affected as a result of the European war.

The resolutions state that inasmuch as the important business of the country has greatly decreased, the tax on shipments of war munitions from the United States would be an important financial asset to the government.

QUESTION HER SANITY.

Mrs. Hammill is Removed to the Psychopathic Ward to be Examined on Mental Condition.

Mrs. Allie Baldwin Hammill, accused of Herbert E. White in the Pendell murder investigation, was taken to the psychopathic ward of the County Hospital yesterday for observation regarding her sanity. She awaited her life Tuesday night by allowing a quantity of chloroform in her room at the Stowell Hotel.

Her nervous condition was such yesterday that the doctors in the Receiving Hospital recommended her transfer to the County Hospital. They diagnosed her trouble as a nervous breakdown, which may have serious and permanent effects on her mind. She is hysterical and given to entertaining visions and imaginary wrongs.

DEFECTIVE FLUE COSTLY.

Fire having its origin in a defective fireplace early last night caused a fire which damaged to the extent of \$1500 a one-story frame dwelling at No. 116 West Seventeenth street. The building is owned by M. Stradford and was occupied by D. W. Mercer.

IN SYNAGOGUE SIVAL.

Services will be held at the Synagogue Sival tomorrow evening at 8 o'clock and Saturday morning at 9:30. Dr. Liknits speaking at both services.

Coat hangers 29c

Large size hangers trimmed with plain satin or pretty Dresden ribbons—all in light colorings. They're ready for use.

Main Floor—Jacoby's.

78 broadcloth suits

—We haven't had such garment news as this to tell in a long, long while—

—Why! do you know, the reductions made on these suits amount, in many cases, to a good share of what you pay—

—Yes, they're all FUR TRIMMED—they're in all wanted colors and sizes and the jackets are all lined with guaranteed satins and peau de cygnes.

—Just 78 of them, so don't put off your choosing too long—

—Remember, the store is closed today—this sale is for Friday!

2nd Floor—Jacoby's

SILKS—now on the 2nd floor

—To make room for the Holiday goods on the Main Floor—and to give the SILKS the space they've been crying for—we've moved them to the second floor. You'll find it a wonderfully satisfactory place to buy silks—the lowness of prices will appeal to you, too.

Hats of hatters plush—priced \$1.55

—A very special purchase brought these, else they'd be ever and ever so much more!

We've just unpacked twenty dozen of them—Twelve new shapes—large, small and mediums of a fine quality plush that has a very bright finish. They've black velvet underfacings. Hats that would sell in the ordinary way at nearly double \$1.55. Second floor—Jacoby's.

Children's Handkerchiefs 15c box

Plain handkerchiefs of cambric in all white and in white with pretty pink or blue borders. Many of them are initialed—No. 2 at 15c.

Main Floor—Jacoby's.

Cretonne boudoir pieces

At 35c to \$1.50 are pretty, attractive waste baskets, glove boxes, collar boxes, tie boxes, hat rests, jewel cases and any number of other little novelties you'll no doubt be interested in. Both light and dark colorings!

Main Floor—Jacoby's.

Pure linen Handkerchiefs 40c

Women's fine all linen handkerchiefs in the covers. Every one of them is a new style. Box of 5.

Main Floor—Jacoby's.

Do You Want To Borrow Money

The chief things to be sure of in making a loan are—

—That it is going to be a benefit to you.

—That you are going to be able to pay it back.

If you have determined that a loan right now will be advantageous to you, let us show you how you can arrange to repay it without difficulty.

The chief advantage in making a loan with us is in the fact that you can practically make your own arrangements for repaying it. All loans made with us are repaid in monthly amounts, but these amounts may be large or small to fit your own circumstances.

A part of each payment covers the interest and the balance applies on the principal, and as the interest decreases each month, a constantly increasing portion will apply on the principal until the loan is completely paid out.

We loan money for building or any other good purpose in amounts not exceeding \$5000.00. Call or write for our loan folder.

THEY DANCE FOR SWEET CHARITY
Dance Ball is Given at the Shrine.
Proceeds to Provide Poor with Christmas Cheer.

For Big Gift-Tree at Auditorium.

The Shrine Auditorium was the scene of a notably brilliant affair last night, the annual Christmas dance given by the Shrine Ball.

The Shrine Ball is given for the purpose of raising funds for the Shrine Hospital, which is a charitable institution for the poor.

The dance was a great success, and the Shrine Hospital will be able to provide the poor with a good Christmas cheer.

The Shrine Hospital is a charitable institution for the poor, and the Shrine Ball is given for the purpose of raising funds for it.

Many Gridiron Battles are Scheduled for Warriors of East and West

POLO BEGINS ITS INVASION.

Season is About Running Full Blast.

Killdeer and Meadowlarks Play Game.

Riverside to be a Mecca Today.

The Killdeer beat the Meadowlarks by 7 goals to 3 at the Midwick Country Club yesterday afternoon, when Miles Phila Miller proved that femininity cannot only play polo, but score goals. She was responsible for one goal herself and ably assisted in securing the other six for the Killdeer.

Miss Elizabeth Clark, who played No. 1 for the Meadowlarks, also gave an exhibition of good horsemanship, and there is no doubt that these girls will make fine polo players.

The victorious Killdeer were captained by Paga Miller, who played back, and was the one experienced player on his team. Harold Cook, who played No. 2, and Lloyd Macy, who played No. 3, were both debutants to the game a few weeks ago. Hence their experience at beating the Meadowlarks so definitely, for there were three experienced polo men on that team, H. Q. McVitty, Dr. Malaby and Rufus Swanson, and they were expected to achieve a walk-over.

R. F. Flint, who refereed the game, had called upon to be exceptionally careful for the occasion, but the two fair players asked no quarter and gave none, but entered most valiantly into the struggle.

It was a very exciting match and they proposed to repeat the experiment at an early date. Scores of friends went down and cheered on the chilly benches and rooted enthusiastically.

AT RIVERSIDE

RIVERSIDE, Nov. 24.—Riverside will be the scene for polo enthusiasts from all parts of Southern California tomorrow for the opening of the Thanksgiving tournament between the Killdeer and Meadowlarks. The game will be called at 2:30 o'clock on the Channing Park field on Magnolia avenue. The delegations are expected from Los Angeles, Pasadena, Redlands, Coronado and other polo centers, for interest is keener in polo this winter than ever before.

Jack Miller, the man in polo on this coast by reason of his office as chairman of the Pacific Coast branch of the American Polo Association, will be in charge. Reservations have been made at the Mission Inn for a party of a dozen who will accompany him.

The rivalry between the two teams has always been keen, and the two matches here, the first tomorrow afternoon and the second on Saturday, promise to be battles royal. Riverside, with practically the same lineup, won from Midwick summer before last at Coronado. Just one goal and hope to retain the honor. The Midwick team, on the whole, is probably better mounted, but at that Riverside has never in its history had a cleaner lot of ponies than will be ridden this winter, and will have an added advantage in being on their own field, on which they are familiar with every bump and hollow.

The turf has been freshly clipped and rolled and the field was better than it has been in this winter. Careful care has been taken of it the past summer, and every inch of the surface is covered with the tough, close-cropped Bermuda grass.

Automobiles will be parked all around the track, which circles the field, offering a splendid view of the field and the players from every point. No charge is to be made for parking space or grand stand seats. As the only athletic event of the day in this immediate section, one of the largest crowds which ever attended a polo match is anticipated.

SAN DIEGO

SAN DIEGO, Nov. 24.—Mal, Colin G. Ross, secretary of the Coronado Country Club, who has charge of the Coronado polo team, will go to Riverside tomorrow to complete arrangements for the tournament of the Coronado polo season, which begins January 1. Mal Ross predicts even better polo than that of last year, owing to the fact that eastern clubs have become interested in the winter polo of the Pacific Coast, and that consequently many famous players will join the polo colony at Coronado this winter.

J. L. Busch's string of ten beautiful ponies from Chicago and a string of seven ponies belonging to Julius Fleischman of Cincinnati are now in the Coronado stables, in addition to those of Walter H. Dupes and Mal Ross.

Thomas Le Boutillier, the second, the Meadowlark Club player, who, with Mrs. Le Boutillier, has been spending several days in Los Angeles, will return to Coronado next week, where they have taken a house for the winter.

A total of sixty-four trotters entered the 21st race this season. Of this number eighteen are 3-year-olds—a record unprecedented in trotting history.

Reason for Thanksgiving.

W. J. Burt, local Auburn agent, with his machine of turkeys and "Xmas," whose names were supplied him by The Times.

THANKSGIVING FROM DEALER.

TURKEYS PROVIDED FOR POOR FAMILIES.

Local Automobile Agent Loads up New Machine with Good Things to Eat and Takes Them Around to Homes of People Destitute Through Lack of Work.

W. J. Burt, the agent for the Auburn automobile, had a heap of fun yesterday. It occurred to him early in the morning that in order to feel the spirit of Thanksgiving as it should be felt, it might be well to help others to celebrate the day—people who otherwise would have no Thanksgiving.

So Burt called up The Times. "Can you name about a dozen families," he said, "worthy people who could use a turkey and fixings tomorrow?"

The Times agreed to provide the names, so Burt went and bought a dozen turkeys and fixings, and piled them into his machine. After lunch, he started out. Why hadn't these people plenty to eat in their homes? Well, two couples were old and feeble and sick; they had no money. Then there was a mother with six children, who was out of work. Another family of five included a blind boy. Two girls were the sole bread-winners and they were ill.

A father who was injured by an automobile recently had a family of five. A man can't earn money for his family when he is laid up and suffering. And so it went. Four, five and six in the family. No money, no work, sickness. One man was afflicted with tuberculosis, and had not earned a cent since last March.

Gratitude? That was the embarrassing part of the afternoon's pleasure, though usually it was accompanied by a decent self-respect that added greatly to the pleasure of giving. "God! Will wonder never cease?" said Mrs. Ryan of East Forty-first street. "It's hard to have to take this," said another woman, "but it means so much to us."

It was a windy day, and Burt got a lot of dust in his eyes; had to rub them. But he had a lot of fun. He thought it worth more than the time and money spent. Most of the cases were in the southeastern part of the city. It has been a hard year for a great many people in that part of town.

SYRACUSE MEETS MONTANA TODAY.

EACH COACH SAYS THAT HIS TEAM WILL HAVE AN EASY TIME.

[BY A. P. NIGHT WIRE.] MISSOULA (Mont.), Nov. 24.—With the Syracuse University eleven out-weighting the Montana University players ten to twelve pounds per man, practically all of this advantage belongs to the Syracuse team. Coach O'Neill for Syracuse predicted an easy victory here tomorrow for his team. Coach Nielsen for Montana said the visitors would have a harder battle than they expected, despite the fact that Syracuse backers are laying even money that their team will win by a margin of forty points. Montana's record for the season so far comprises defeats by Washington State College, 47 to 0, and by South Dakota, 16 to 7. The locals have scored but one victory, defeating the University of Idaho 15 to 3, and tied a game with North Dakota, 10 to 10.

STAR BASKET MEN OFF FOR ORANGE.

Charley Keppen will transport the B. H. Dyas Company All-Star basketball team to Orange tonight to meet the fast Orange quintette. The stars wiped the ground with Manual the other night and tonight's game is expected to be fast and snappy.

PREPS READY TO EXPLODE.

Pasadena, Long Beach Play Annual Game.

Painting of Letters Excites Both Schools.

Police Guard Scene of Fray on Eve of Battle.

[SPECIAL CORRESPONDENCE.] LONG BEACH, Nov. 24.—On the eve of what is expected to be one of the bitterest gridiron battles ever staged in this city, Long Beach has gone football mad. Discussion of the probable outcome of the annual Turkey Day clash with Pasadena, upon which depends the Crown City eleven's chances for the southern prep championship, seems to be on the lips of all the townspeople as well as the students.

Pasadena's resentment over the inscription of the letters "L. B." on their jerseys by local students, and the contention that has been stirred up over the matter, has given both sides something else to argue over in addition to the result of the football game, and an exceptionally hard-fought contest is anticipated when the two schools meet Thursday.

[SPECIAL CORRESPONDENCE.] Following a rousing rally at the high school this afternoon, during which the defeat of Pasadena was predicted by several students, over a thousand students marched, sang and yelled their way along the principal downtown streets of the city. A great many business men joined the wild demonstration.

Fandomism broke loose among the entire Long Beach High School student body this afternoon when a dummy football player, wearing the colors, was brought onto the stage on a stretcher and declared defeated. It was several minutes before order could be restored.

The students again gave vent to their thoroughly aroused feelings when Capt. Beverly Anderson of Long Beach tore off the Pasadena banner from the stage and threw it to the stage.

Coach Elliott touched on the recent unpleasantness brought about by the lawn incident and warned the students to guard their conduct and keep their heads during and following the football game Thursday.

AN AGREEMENT. Long Beach has signed an agreement with Pasadena to the effect that whichever team wins shall have the right to serpentine around the gridiron without interruption, and that neither school will abuse the colors of the other. The agreement was read to the Long Beach students at an assembly called assembly this afternoon.

Police are guarding the local high school tonight, fearing a repetition of last night's attempt on the part of Pasadena students to invade the precincts of the local institution of learning. A machine load of Pasadena students invaded Long Beach last night, but the invaders were dispersed by watchful local student guards before any mischief could be perpetrated.

SCRIMMAGE FOR NAVY PLAYERS. COACHES GIVE FINAL TALKS TO THE DEEP SEA WARRIORS.

[BY A. P. NIGHT WIRE.] ANNAPOLIS, Nov. 24.—Lining up the Navy regulars against the scrubs, who went through the favorite plays of West Point as seen by Navy scouts during the season, the coaches gave their final instructions this afternoon to their charges prior to the interservice game at New York Saturday. Tomorrow morning there will be a brief signal rally before the team leaves for New York.

BIG TEAMS ARE READY FOR GAME. CORNELL AND PENNSY TAKE LIGHT WORKOUTS FOR BATTLE.

[BY A. P. NIGHT WIRE.] PHILADELPHIA, Nov. 24.—The Universities of Cornell and Pennsylvania football squads were given light signal practice today in preparation for tomorrow's contest on Franklin Field. Head Coach Sharpe announced that the line-up of the big eleven would be the same that started against Washington and Lee.

COURT RULES AGAINST GAME. SEATTLE, Nov. 24.—Presiding Judge Everett Smith of the King County Superior Court, after conferring with his eight associate judges, issued an order today forbidding a football game advertised for tomorrow morning between two teams of prisoners from the County Jail. The game, for which admission was to be charged, was widely advertised.

One published announcement said that a former unnamed Harvard star would play on one of the teams, to the great indignation of Harvard alumni, who protested against such a statement, which they branded as false.

Sheriff Robert T. Dodge, who had arranged the game between the prisoners teams, said tonight that it would be played despite the court's prohibition. In forbidding the game, the court ruled that it was illegal to remove prisoners from their jail except under orders of the court.

HAWKEYE TITLE TO BE SETTLED. TWO DUBUQUE TEAMS ARE TO CONTEST FOR SUPREMACY TODAY.

[BY A. P. NIGHT WIRE.] DUBUQUE (Iowa), Nov. 24.—Dubuque German College and Dubuque St. Joseph's College will play tomorrow for the Hawkeye conference championship in football. Hundreds of former students of the two institutions have arrived here to see the game.

AVIATOR VISITS IN LOS ANGELES. De Lloyd Thompson, said to be one of the greatest aviators in the game today, arrived in Los Angeles from Chicago yesterday to spend a week here. He will practice new variations at Griffith Park. His specialty is looping the loop.

BLANKENSHIP GETS OLD JOB.

[BY DIRECT WIRE—SPECIAL CORRESPONDENCE.] SALT LAKE CITY, Nov. 24.—President Frank S. Murphy of the Salt Lake baseball tonight announced that he and Cliff Blankenship had arrived at terms for Blank's 1914 contract as manager of the Salt. The club and Blank have been talking for a week about just how much of a raise the skipper should get, but they could not quite get together. Today they invited each other on a duck hunt and while the ducks were dropping they agreed on terms.

Murphy said Blank would sign probably Friday. The Fray did not say how much of an increase Blank gets but it is to be a pretty neat recognition of his services.

[SPECIAL CORRESPONDENCE.] DARTMOUTH COLLEGE, Nov. 24.—The new San Diego club initiated today by a battle between Santa Ana and San Diego schools. Coach Fred W. Whitteppes has been with this game as if he had not been on it, and a lot of money was spent in the process.

The present San Diego club is expected to be the strongest team in years. It is a machine team, with an excellent virtual start, among players who are great at running and covering the bases.

Trago is perhaps the best in the Santa Ana team, and at batting the San Diego club is expected to be the strongest team in the South.

San Diego is playing on the same schedule as the Santa Ana club, and is expected to be the champion of Southern California. There is all kinds of talk that the San Diego team is a virtual body in a team.

WRESTLER PAPPAS TAKES UP DEFI.

Gus Pappas, the successful Greek wrestler, will accept the challenge of one F. Klaphan, according to William Balla, manager of Pappas. Balla says that his man will wrestle any time, anywhere and under any conditions.

Dartmouth pitchers will for the first time have indoor practice this winter.

Best Treatment for Catarrh S. S. S. Removes the

Specialists in Catarrh troubles have agreed that it is the best blood. The laboratories of the S. S. S. Co., at Atlanta, have shown you get your blood free from impurities cleansed of the blood.

relieved of Catarrh—the dripping in the throat, hawking, and sores in the nostrils, and the disagreeable bad breath. It is the first place, because your impoverished blood was only made a slight cold or contact with someone who had a cold. You don't suffer with Catarrh—it is not necessary. The remedy is to get over fifty years ago, tested, tried, and shown to be the best drug store. It has proven its value in thousands of cases of your case. Get S. S. S. at once and begin treatment. It will stand the test, and be sure to write the S. S. S. Co., Atlanta, Ga., for medical advice. They will tell you how this purely vegetable cleanses the impurities from the blood by literally washing it.

will prove to you that thousands of sufferers from Catarrh, treatment with S. S. S. have been freed from the trouble, and that the features and restored to perfect health and vigor. Do not hesitate. Take S. S. S. at once.

AT THE STAGE DOOR

"On Trial" at the Mason will remain over for a special Sunday-evening performance, so great has been the drawing power of the Rehearsal play.

A number of law students are planning to attend Saturday evening, every mother's son no doubt hoping to grow up to be as good a lawyer as Rehearsal, and about two-thirds of them praying to become, also, as good a playwright as Rehearsal.

Meter on Publicity.

The Mason P. A. figures that "On Trial" has three miles of publicity to its credit. He has figured this out from his publicity book with one hand, while he was writing more publicity with the other.

Good Off-stage, Too.

Billie Fogarty, at the Orpheum, is an off-stage monomaniac of the best vintage. In fact, if he had to give up all the funny stuff he talks and sell it, he wouldn't need to be romping around in the two-day act at all.

Some musical-comedy magazine sleuth-footing around for a first-class gossamer-chaser is going to "discover" Billie one of these days. Fogarty was, indeed, offered a leading part in the Winter Garden Show this season, but refused for reasons best known to himself.

He has been on the stage only three seasons, and he admits he has "only a brickyard education."

"Mother wanted me to be a priest," said Billie, "but I thought I to myself, 'That would be April-fooling myself, wouldn't it?' So I ran away to New York to be a cabaret singer."

Out of Snow-eating Class.

Fogarty later got in with a musical-comedy publishing firm.

"It was then I escaped from the 'I-snow-eat-and-I-don't-eat' class," said the comedian. "Wrote a lot of songs and used to sing the songs, my own and other folks', for vaudeville performers who were looking for numbers. That's the way in which Miss Kirk heard of me."

Opens Mouth Anything.

Houdini, who comes to the Orpheum next week, is open to challenge. So if you have something you can't open—say, a jacket—he will turn the trick for you easily.

Houdini admits that one of the most interesting things he ever opened, and one which required the most skill, and which he worked at most patiently for years, was a bank account. He says the only thing he hasn't learned how to open is an account with a railway company.

Houdini claims seriously to have invented a helmet which will permit a deep-sea diver to release himself from his heavy suit while under water in case of accident. The inventor proposes to offer his invention to the United States government, free, for use of those whose calling takes them under the sea.

Hattie May Dance.

Mr. Morocco is considering placing Hattie Williams in a musical comedy while she is in the West. Miss Williams is one of Broadway's favorite musical-comedy stars, or was before Charles Frohman made a dramatic star of her.

Some Film.

Nazimova, who played "Bella Donna" on the stage, has viewed Pauline Frederick in the film version, which will be shown at Tally's Broadway today, and stated that in her opinion Miss Frederick gave one of the finest performances she had ever seen either on stage or screen.

By the way, the oriental love scenes are said to be very oriental indeed!

Cold for Cupid.

The chorus girls in Gertrude Hoffman's "Bumrun" are reported to have put on clothing in Cincinnati, not in accordance with the behavior of the chorus, but on account of the commands of mother nature, who ordains it cold in Cincinnati in November.

George, Too.

George Broadhurst will arrive in Los Angeles in the course of a week, and will put on a new play at the Burbank for Oliver Morocco.

Lakes to Fly.

Hattie Williams is very fond of all-shiping. She has made several flights back East with aviators of note, and in London while starting in "The Little Cherub" flew with Graham White, who circled the top of Buckingham Palace twice with his fair passenger.

Hello, Winnie.

Winifred Bryson will return to the Burbank in the cast supporting Hattie Williams in "Detective Sparkes."

Warbles in War Zone.

Kate Guyon, the young woman who plays the lead in that funniest of farces, "A Pair of Sixes," which comes to the Majestic December 5, is a singer as well as a comedienne of note, and she is also brave, for she plans, following her present engagement, to go to Paris and continue her musical studies.

Give 'Em a Chance.

It is reported that a coalition of the World, Equitable, Pathe, Brady, Shubert and Paragon in conjunction with the Paramount, is in contemplation. This will give the exhibitor an opportunity for a greater latitude of choice.

Uncommercial Billie.

Billie Sunday has been offered \$5000 a week to appear in vaudeville, but is reported to have turned down the offer.

And yet they define a Billie Sunday cocktail as a glass of water with a silver dollar at the bottom.

Solar for Circus.

Willie Solar, who was at the Orpheum a few months ago, has signed up with the Solar-Photo show as their principal clown for next season.

A Sphinx.

"How do you like my performance in the 'Master Mind'?" inquired David Butler of Frank Darien, the other day.

"I don't think you could have done

it any better," replied Darien. And now Butler goes about bewigged-looking, and gesticulating from time to time. "Wonder what he meant—I couldn't have done it better."

Grace's Socks. Grace de Mar, shortly to appear at the Orpheum, wears Russian boots and men's socks on the street as well as on the stage.

Some publicity! Morocco Gets T. Roy. Latest bulletin: T. Roy Morocco is to be signed up by Oliver Morocco for a part in "Rudie Love."

Buster Temperamental.

"Buster" Collier is working in a picture with his dad, William Collier, at Inceville, under Walter Edwards's direction. It is "Buster's" first picture and he says he's very nervous.

Thomas Fox describes "Buster" as a "bear" in pictures and will feature him in a special film.

Sugar and Spice.

By the by, Avery Hopwood has added some more strictly lines to "Rudie Love" since he is showing it in the effete East.

When a fly cop informs the eloping party that it is a crime, according to the law, the party is arrested.

Meter on Publicity.

The Mason P. A. figures that "On Trial" has three miles of publicity to its credit. He has figured this out from his publicity book with one hand, while he was writing more publicity with the other.

Good Off-stage, Too.

Billie Fogarty, at the Orpheum, is an off-stage monomaniac of the best vintage. In fact, if he had to give up all the funny stuff he talks and sell it, he wouldn't need to be romping around in the two-day act at all.

The inventor proposes to offer his invention to the United States government, free, for use of those whose calling takes them under the sea.

Hattie May Dance.

Mr. Morocco is considering placing Hattie Williams in a musical comedy while she is in the West. Miss Williams is one of Broadway's favorite musical-comedy stars, or was before Charles Frohman made a dramatic star of her.

Some Film.

Nazimova, who played "Bella Donna" on the stage, has viewed Pauline Frederick in the film version, which will be shown at Tally's Broadway today, and stated that in her opinion Miss Frederick gave one of the finest performances she had ever seen either on stage or screen.

By the way, the oriental love scenes are said to be very oriental indeed!

Cold for Cupid.

The chorus girls in Gertrude Hoffman's "Bumrun" are reported to have put on clothing in Cincinnati, not in accordance with the behavior of the chorus, but on account of the commands of mother nature, who ordains it cold in Cincinnati in November.

George, Too.

George Broadhurst will arrive in Los Angeles in the course of a week, and will put on a new play at the Burbank for Oliver Morocco.

Lakes to Fly.

Hattie Williams is very fond of all-shiping. She has made several flights back East with aviators of note, and in London while starting in "The Little Cherub" flew with Graham White, who circled the top of Buckingham Palace twice with his fair passenger.

Hello, Winnie.

Winifred Bryson will return to the Burbank in the cast supporting Hattie Williams in "Detective Sparkes."

Warbles in War Zone.

Kate Guyon, the young woman who plays the lead in that funniest of farces, "A Pair of Sixes," which comes to the Majestic December 5, is a singer as well as a comedienne of note, and she is also brave, for she plans, following her present engagement, to go to Paris and continue her musical studies.

Give 'Em a Chance.

It is reported that a coalition of the World, Equitable, Pathe, Brady, Shubert and Paragon in conjunction with the Paramount, is in contemplation. This will give the exhibitor an opportunity for a greater latitude of choice.

Uncommercial Billie.

Billie Sunday has been offered \$5000 a week to appear in vaudeville, but is reported to have turned down the offer.

And yet they define a Billie Sunday cocktail as a glass of water with a silver dollar at the bottom.

Solar for Circus.

Willie Solar, who was at the Orpheum a few months ago, has signed up with the Solar-Photo show as their principal clown for next season.

A Sphinx.

"How do you like my performance in the 'Master Mind'?" inquired David Butler of Frank Darien, the other day.

"I don't think you could have done

Varied types on local screens.

Valeska Suratt, the blonde, is being seen in "The Soul of Broadway" at the Alhambra; Adrienne Morrison, whose charm is of a pensive order, is appearing in "Damaged Goods" at Quinn's Superba; and Pauline Frederick will lend her dramatic forcefulness to the portrayal of the title role in "Bella Donna," which will be shown for the remainder of the week at Tally's Broadway.

Poly Wins.

(Continued from First Page.)

dumped the Mechanics hardest. He scored the touchdowns via the forward pass route. Nimmer and Shaw and Pentz, and Hopperstead, were always in the thick of the scrum.

Neither team scored in the first quarter and neither team got very far. First downs were usually made when they were made, from punt formation on fake kicks by Haney for Poly and Shaw for L. A.

SCORES. In the second quarter Poly worked the ball down to L. A.'s one-yard line and Haney drove over. Then later Poly got the ball to L. A.'s 20-yard line and Haney place kicked. Haney went out after the kick all in.

The second half started with Francis running around the whole L. A. team for a touchdown on the kick-off. The first L. A. score was made in the third quarter on a forward pass over the Poly goal line by Pentz to Mandie. It was a perfect pass, perfectly caught. Burks and Poly errors got the Mechanics that far. Scott recovered a fumble on Poly's two-yard line.

The second touchdown was made on a forward pass by Scott and Pentz in the same quarter. Wood missed the first and kicked the second goal. But shortly before this Shaw was caught behind his own goal line by a Poly man for a safety. That made the score 19 to 13 and there it stood to the end.

Poly hurriedly rushed Haney, limping back into the game. On the first play he shot through the Cliffdwellers

for fifteen yards and they accepted the inevitable.

As Poly's rosters sang they simply had L. A.'s goat.

POLO STAR TO PLAY IN SOUTH.

HARRY PAYNE WHITNEY WILL SEND HORSES TO SANTA BARBARA.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.) SANTA BARBARA, Nov. 24.—Harry Payne Whitney is expected to arrive here shortly with a string of polo ponies. He is now engaging his mounts in the polo events at San Mateo. Accompanying Whitney to the Coast are Frederick Watrous and James Waldingfield Appleton, New York polo enthusiasts.

If the Honolulu polo team comes to the Coast after the holidays, the team will meet on the Santa Barbara polo fields some of the crack teams of the south. This is the hope passed out by local club members, who state that they confidently expect some of the island riders here in February.

CORNELL WINS FROM HARVARD.

(BY A. P. NIGHT WIRE.) CAMBRIDGE (Mass.) Nov. 24.—Cornell defeated Harvard at association football today, 1 to 0.

CUT THIS OUT AND SAVE IT!

Suggestions on what to do when you reach San Diego:

1. Locate hotel accommodations early upon arrival.

2. Motor out to Cristobal case in the exposition grounds for turkey dinner at 6 p.m.

3. Friday morning secure information at auto club office in U.S. Grant Hotel for best tours around San Diego.

4. Watch for time of automobile parade on Saturday, and join the line behind the band in front of Grant Hotel.

5. Have your expedition tickets ready to enter grounds in your own car.

6. Attend the military gymkhana on the tractor field.

7. Attend informal motor ball on the Plaza de Panama Saturday night.

8. Return Sunday "as you please" over either Coast or inland route.

California Varsity.

(Continued from First Page.)

off tackle and goes plowing into the line. That California could counteract by building a heavy line defense and arousing a grim fighting spirit.

DIFFERENT.

New California is going up against the wide-open game of long and short forward passes and tricks. In the twinkling of an eye a quick pass or trick will undo what fifteen minutes of plowing has accomplished. Berkeley stopped backs and a smashing attack—that does not mean that she can stop the forward pass or the Trojan's speed. Fighting spirit does not avail when the ball goes where you're not, and the hardest tackling in the world is wasted if you are on the other side of the field from the man with the ball.

The Bears claim that they have a defense for the forward pass. That may be true. Other teams have stopped it—even that of the Trojans, which is the best that the south knows. Again the Bears may not be wise enough.

WHAT ED SAYS.

Ed Irvine, who helped Glase coach U.C. last season, is rather inclined to think that the Bears will find themselves between the devil and the deep sea.

"Whittier gave us a terrible scare with the forward pass last year, because, like California, we did not have the secondary defense back far enough, so we moved the second line back for the Occidental game. What happened? Occidental bucked off tackle and ran around end, and our second defense was left in the air. Our backs got to them. Why? Because they didn't have enough football sense to go in to meet the play. When they did go into meet it, they stayed and the forward pass went over their heads. Making a secondary defense contract and expand to meet the forward pass and the back is more than a system of defense—the backs must have football instinct enough to sense the play. I doubt if it can be taught men in one year."

THE QUESTION.

So it remains to be seen whether California has a defense for this wide-open football.

What kind of an offense has California? Against U.S.C. it was weak. Against Washington in the first game there was neither offense nor defense, and in the second mostly defense and little offense. Against Nevada the Bears made 31 points—and it takes an offense to make that many points against the weakest team in the country.

The same may develop into a question of which can score fastest. If it does, the open game is likely to be the fastest.

The Bears have lost Sharpe. Glase and the Trojans believe that his loss has been overestimated.

U.S.C. has everybody they had against California in the first game—with more speed in the back field. Murray, Mosley, Liverman and Mallette is a feet combination. At the ends will be Werner and Craig—snaggers of the forward pass. Also Craig and Mallette can throw the ball. Besides, U.S.C. can do pretty well on straight football.

The outcome of today's game is very much in doubt. Before California was overestimated. It looks as if somebody were underestimating U.S.C.

THE LINE-UP.
